

# The Willis Family

Missionaries to Panama

September 30, 2009

Dear Friends,

We trust God is blessing each one of you just as He has been blessing us here in Panama. We are very excited about what God has been doing the past couple of months and we are excited to share it with you. Thank you for your support and for praying for our ministries.

*Pray for this property!*

We have been averaging around 600 to 700 people in our church for the past four years. We have two services on Sunday mornings, two children's churches and over 35 Sunday School classes in, behind, and in front of our building. Our auditorium is around 85% full every time we have a service. We need to buy around two acres to be able to build a 600 seat auditorium and have the offices and classrooms we need. The land in the picture above has almost two acres and it is located only one block from the main street in downtown David. The land is valued here at over \$700,000.00 and we have nothing close to that amount, but we are praying God will give us this land. Humanly speaking, there is no way we can afford to do this as a church, but we know we have a mighty God who will provide. Please pray God will provide us with the property and the building we need to keep on growing in attendance.

I now have a radio program which is called "BUT THE BIBLE SAYS." I broadcast this program LIVE every Tuesday, Wednesday, and Thursday afternoon at 4:00p.m. It is a half hour program and I start with a theme and invite people to call in to ask questions about the theme I am speaking on. God has blessed and in the first two months we have seen many people call and we trust many are coming to Christ. We are hoping to see people in church soon as a result of this program. This program costs us \$400.00 a month and our church here has made pledges to give this amount to cover this expense. Praise God for this new outreach.

We have **FOUR BUSES** which were given to us that are still in Tennessee. It will cost us at least \$4,000.00 to get each bus to Panama. We have sold one bus and we need to see another one so we can have the money to bring the other four down. Once we have our new building we will need to have at least 14 buses for all the routes we run.

Our **GIRL'S HOME** turned three years old on Sep. 29 and we have over 25 girls and children in the home!

In His Service,

Thank you for the support received in: Aug. \$ \_\_\_\_\_; Sep. \$ \_\_\_\_\_
